

CURRICULUM VITAE - JAMES I. DREVER

EDUCATION:

B.A. Cambridge University (England), 1964, Chemistry

Ph.D. Princeton University, 1968, Geochemistry

Dissertation: Electrophoresis and the study of clay minerals in Recent sediments. Advisor: H.D. Holland.

Fellowships: 1966-68, Harold W. Dodds Fellowship, Princeton University: "among the most distinguished available to students who have completed the General Examination ... without regard to department or field of study."

PROFESSIONAL APPOINTMENTS:

2005- Emeritus Professor, University of Wyoming.
1993- J.E. Warren Distinguished Professor of Energy and the Environment, UW
2002-2005 Dept. Head, Dept. of Geology & Geophysics, University of Wyoming.
1977-2005 Professor, Dept. of Geology & Geophysics, University of Wyoming.
1974-77 Associate Professor, Geology Department, University of Wyoming.
1971-74 Assistant Professor, Geology Department, University of Wyoming.
1969-71 Assistant Research Oceanographer, Scripps Institution of Oceanography,
University of California, San Diego.
1968-69 Postgraduate Research Oceanographer, Scripps Institution of Oceanography.

Registered Professional Geologist in Wyoming, 1992-

Sabbaticals:

2001-2002, von Humboldt Award recipient, University of Freiburg, Germany; Visiting Professor, Université Paul Sabatier, Toulouse, France.

1994-95, Chercheur associé, Centre de Géochimie de la Surface, CNRS, Strasbourg, France.

1979-80 and 1987-88, Visiting Professor, Swiss Federal Institute for Water Resources and Water Pollution Control (EAWAG), Swiss Federal Institute of Technology, Zürich.

RESEARCH INTERESTS: Geochemistry of surface and ground waters; weathering processes, particularly effects of organic acids and plants; global geochemical cycles; effects of acid deposition on surface waters; chemical and microbial aspects of contaminant migration; environmental impacts of mining; geochemical aspects of waste disposal.

Current professional activities: Principal Editor Elements; Preparing 2nd edition of Treatise on Geochemistry Vol. V; preparing 4th Edition, The Geochemistry of Natural Waters. Occasional consulting.

SERVICE TO PROFESSIONAL ORGANIZATIONS, HONORS ETC:

- President, The Geochemical Society 2004 & 2005
- Vice-President, The Geochemical Society, 2002 & 2003
- Principal Editor, Elements, 2010-2012
- Editor-in-Chief, Chemical Geology, 1995-2001; Editorial Board, Chemical Geology, 1977-85, 2001-2006
- Associate editor, Geochemical Journal (Geochemical Society of Japan), 2003-2008
- Guest editor, Environmental Science & Technology, 1998
- Associate editor, Geochimica et Cosmochimica Acta, 1982-94
- Editorial Board, Geology, 1984-86
- Councilor, The Geochemical Society, 1985-88
- ACS Petroleum Research Fund Advisory Board, 2003-2009
- Scientific Advisory Committee, Rocky Mountain Regional Hazardous Substances Research Center (Fort Collins), 2002-2005
- NASA Review Panel "Mars Fundamental Research Program" 2004.
- Peer Review Panel for the Early Site Suitability Evaluation of the Potential Repository Site at Yucca Mountain, Nevada, 1991 (for DOE)
- Invited observer/reviewer, USGS Retreat on Earth Science Studies for the Yucca Mountain Project, 1989.
- NSF Panels (Seabed Assessment, IDOE, 1981-83; Environmental Geochemistry and Biogeochemistry, 1996; Life in Extreme Environments, 1997; Critical Zone Observatories, 2007)
- Director, NATO Advanced Research Workshop "The Chemistry of Weathering", Rodez, France, 1984.
- Organizing Committee, for NATO Advanced Study Institute "Physical and Chemical Weathering in Geochemical Cycles", Aussois, France, 1985.
- Mineralogical Society of America MSA Award Committee, 1985-87.
- National Atmospheric Deposition Program review panel for Materials Effects, 1986.
- Director, EPRI/EPA/NCASI Workshop on weathering processes and acid deposition, 1986.
- Participant in Working Group on Potential Role of Contaminants in Declines of Pelagic Organisms declines in the Upper San Francisco Estuary. National Center for Ecological Analysis and Synthesis, 2007-2010.
- Member, Technical Qualifications Review Board, US EPA, 2008.
- Alexander von Humboldt Foundation Award, Germany, for "outstanding achievements in research and contributions to international cooperation and understanding," 2001.

Fellow, The Mineralogical Society of America, 1989-

Fellow, The Geological Society of America, 1994-

Symposium "Rates of Geochemical Processes and their Application to Natural Systems" held in honor of James I. Drever. Goldschmidt International Geochemistry Conference, Vancouver, BC, July 2008. Published as special issue of Chemical Geology.

University of Wyoming awards:

A&S Distinguished Emeritus Faculty Award, 2005

George Duke Humphrey Outstanding Faculty Award, 2004

UW President's Speaker Series lecturer, 1999

President's Award for Scholarly Work, 1993

J.E. Warren Distinguished Professorship of Energy and the Environment, 1993-

Proposal reviewer for:

NSF (Geochemistry Program, Hydrology Program, Hydrologic Sciences Program, Environmental Geosciences Program, Geography and Regional Science Program, Geology Program, Geologic Record of Global Change Program, Petrology Program, Office of Polar Programs, Surficial Processes Program, Stratigraphy & Paleontology Program, Geology & Paleontology Program, Marine Chemistry Program, Submarine Geology & Geophysics Program, Thermodynamics and Mass Transfer Program, Environmental Geochemistry and Biogeochemistry Program, Life in Extreme Environments Program, Critical Zone Observatories, International Programs, International Decade of Ocean Exploration, RANN), National Institute for Global Environmental Change

EPA (various programs)

DOE (various programs)

USGS (various programs)

NASA

ACS Petroleum Research Fund

USDA National Research Initiative Competitive Grants Program

Abandoned Coal Mine Lands Research Program.

National Sciences and Engineering Research Council of Canada

Netherlands Geosciences Foundation

National Environmental Research Council (UK)

Israel Science Foundation

U.S.-Israel Binational Science Foundation

International Science and Technology Center

Swiss National Science Foundation

International Science Foundation (George Soros)

MONTS

Virginia Water Resources Research Center

Hudson River Foundation

Cottrell Foundation

Manuscript reviewer for: Academic Press, American Chemical Society Symposium Series, American Journal of Science, American Mineralogist, American Scientist, Applied Geochemistry, Aquatic Geochemistry, Archives of Environmental Contamination and Toxicology, Arctic and Alpine Research, Biogeochemistry, Canadian/American Conferences on Hydrogeology, Canadian Journal of Earth Sciences, Catena, Chemical Geology, Clays and Clay Minerals, Colloids & Surfaces, Comptes Rendus de l'Académie des Sciences (Paris), Contributions to Geology, Contributions to Mineralogy & Petrology, DNAG, Earth & Planetary Science Letters, Encyclopedia of Earth System Science, Environmental Contamination and Toxicology, Environmental Science & Technology, European Journal of Soil Science, Geochemical Journal (Japan), Geochimica et Cosmochimica Acta, Geological Society of America Bulletin, Geology, Global and Planetary Change, Global Biogeochemical Cycles, Harcourt Brace Jovanovich, Hydrological Processes, Initial Reports of the Deep Sea Drilling Project, In Situ, Journal of Geological Education, Journal of Geology, Journal of Geophysical Research, Journal of Hydrology, Journal of Mathematics Applied in Medicine and Biology, Journal of Sedimentary Petrology, Journal of Soil & Water Conservation, Macmillan, Marine Chemistry, Marine Geology, Minerals and Metallurgical Processing, National Geographic Research, National Research Council Studies in Geophysics, Nature, Paleoceanography, Precambrian Research, Prentice-Hall, Princeton University Press, Science, Water, Air & Soil Pollution, Water Resources Research, various symposia.

Invited Lectures

University of California, Berkeley; UC San Diego; UC Davis; UCLA; University of Southern California; Portland State University; Northwestern University; University of Virginia; Georgia Institute of Technology; Syracuse University; Pennsylvania State University; University of Connecticut; Swiss Federal Institute of Technology; Universität Bern (Switzerland); Universität Bayreuth (Germany); Hahn-Meitner-Institut für Kernforschung (Berlin, Germany); Gesellschaft für Strahlen- und Umweltforschung (Munich, Germany); University of New Mexico; Colorado State University; Princeton University; Harvard University; Vrije Universiteit Amsterdam (Netherlands); Universität Freiburg (Germany); Université Louis Pasteur (Strasbourg, France), Université Paul Sabatier (Toulouse, France); Universidad Autonoma de Mexico; Universidad Autonoma de Baja California Sur; University of Texas, Austin (Oliver Lecture in Hydrology).

Society memberships: Geochemical Society, Geological Society of America (fellow), International Association for Geochemistry and Cosmochemistry, Mineralogical Society of America (fellow).

PUBLICATIONS:Books

- Drever, J.I. (2003) (editor) Surface and Ground Water, Weathering, and Soils. Treatise on Geochemistry Vol.5 (series eds. H.D.Holland and K.K.Turekian), Elsevier, Oxford, 626 p. Second Edition in progress.
- Drever, J. I. (1997) The Geochemistry of Natural Waters, Third Edition. Prentice-Hall, Upper Saddle River, N.J., 436 p.
Fourth Edition in progress (with P.A. Maurice).

GRANTS AND CONTRACTS:

NSF Biocomplexity—Incubation Activity: “Developing conceptual and mathematical approaches to model transport and transformation of elements through a geothermal landscape.” \$99,984, 2000-2003 (P.J.S. Colberg, B. Chen, J.I. Drever, R.O. Hall, N.W. Hinman).

NASA Planetary Instrument Definition and Development Program “Thermal oxidative pyrolysis and evolved gas analyzer (TOPEGA), \$494,493, 1998-2000 (J.A. Schmidt (Ball Aerospace & Technologies Corp.), G. Kopp, J.I. Drever, T. Hochwitz)

NSF Major Research Instrumentation: "Acquisition of a stable isotope facility to study terrestrial processes and their interaction with climate and the environment." \$335,000, 1998-2001 (J.M. Welker, J.I. Drever, S.T. Jackson, S.R. Poulson, W.K. Smith).

Wyoming Water Research Center: “The use of stable isotopes (N, O) to trace sources of nitrate contamination and to document denitrification in ground waters” \$25,000, 1997-98, \$15,000 1998-99 (S.R. Poulson and J.I. Drever).

NSF Environmental Geochemistry and Biogeochemistry Program "Stable isotope analysis of the fate and mobility of organic contaminants in soils and groundwater" \$150,000, 9/1/96-8/31/98 (S.R. Poulson, J.I. Drever, P.J.S. Colberg, E.F. Kelly)

NSF EPSCoR: "Biogeochemistry of trace elements in aquatic ecosystems: new perspectives" \$2,400,000, 1995-1998 (with faculty in Chemistry and Zoology & Physiology)

EPA EPSCoR "Development of geomicrobial processes for remediation of metal/organic contamination in soils, sediments, and ground water," \$163,332, 1995-97 (P.J.S. Colberg and J.I. Drever).

Wyoming Water Resources Center: "Distribution coefficient (K_d) values for the partitioning of Pb, Cd, Cu, and As between Wyoming soils and pore waters: comparing measured and predicted values," \$18,454, 1994-1995; \$13,055 for 1995-96 (J.I. Drever and L.L. Stillings)

U.S. Air Force Office of Scientific Research: "Adsorption of hazardous organic compounds by mineral surfaces," \$592,170, 1994-1996 (K.T. Carron, D.A. Buttrey, J.I. Drever, G.F. Vance, and M.B. Allen)

NSF (EPSCoR ADP) and State of Wyoming "Groundwater Research Cluster", approximately \$3,000,000 among 9 faculty over 3 years, 1992-1994.

Wyoming Water Research Center: "In situ immobilization of heavy metals associated with uranium leach mining." \$22,440, 1992-93.

NSF (Scientific Instrumentation Program) \$70,000 Funds to purchase an automated X-ray diffractometer, 1992.

U.S. Air Force: "A new approach to the determination of bioavailable metals in surface waters," \$334,475, 1991-94 (Co-PI with H. L. Bergman, Zoology Dept.)

Co-principal investigator (with K.J. Reddy and S.P. Gloss) Electric Power Research Institute: "Development of a CO₂ pressure technique for chemical stabilization of alkaline CCT wastes." \$116,849, 1990-1993.

Wyoming Water Research Center. "Hydrology and geochemistry of an arkosic artesian aquifer, the New Fork Tongue of the Wasatch Formation, Green River Basin, Wyoming." \$16,571, 1991-92.

ENSR Corporation: "Geochemistry of Milltown Reservoir sediments." \$27,445, 1990-93.

EPA: "Watershed Manipulation Project: A field study of processes which regulate surface water acidity". U. Wyoming sub-project, \$203,770, 1990-93.

Wyoming Water Research Center: "Soil-water interaction as a control on surface-water chemistry, West Glacier Lake Basin, Snowy Range, Wyoming". \$45,767, 1989-91.

Wyoming Water Research Center: "Hydrology and recharge mechanics of alpine carbonate terranes in Wyoming thrust belt mountain ranges". \$40,680 for 1989-1990 (P.W. Huntoon & J.I. Drever). Renewal by J.I. Drever and P.W. Huntoon funded for \$12,395 for 1990.

USDA, Forest Service: "Water from snowpack". \$30,000, 1988-90.

Wyoming Water Research Center: "Importance of chemical weathering, soil-water interaction, and in-lake processing as controls on surface water chemistry at West Glacier Lake, Snowy Range, Wyoming", \$15,000, 1988 (with F.S. Sanders).

Co-principal investigator (with H. L. Bergman, Zoology Dept.): U.S. Geological Survey: "Development of biologically relevant methods for determination of bioavailable Al in surface waters". \$173,533, 1988-1990.

Wyoming Water Research Center: "Seasonal variability and transport of acidic materials and selected trace elements in surface waters at the West Glacier Lake Watershed, Snowy Range, Wyoming", \$29,782, 1987-88 (with F. S. Sanders).

Co-principal investigator (with W. A. Reiners and D. H. Knight), U. S. Forest Service: "Acid neutralization in Glacier Lakes Basin, Medicine Bow Mountains" \$78,487, 1987-88.

DOE (through Western Research Institute): "Geochemical modeling related to the surface disposal of processed oil shale solid waste" \$186,000, 1987-89 (with K.J. Reddy and V. Hasfurther).

EPA, Cation Supply Task Group, Watershed Manipulation Project, Univ. of Wyoming sub-contract, \$245,112, 1986-1989.

Co-principal investigator (with F.S. Sanders, WWRC), U.S. Geol. Survey: "Temporal variability and fluxes of acidic materials and selected trace elements in the surface waters of West Glacier Lake, Snowy Range Mountains, WY." \$59,930, 1986-88.

Co-investigator on U.S. Nuclear Regulatory Commission project, "Flow of Groundwater and Transport of Contaminants Through Saturated Fractured Geologic Media from High-Level Radioactive Waste". \$1,200,000, 1985-88 (P.I. S.C. Way, In-situ, Inc.)

Co-investigator on U.S. Forest Service project "Characterization of High Elevation Research Sites for Atmospheric Deposition Studies" (P.I. J. H. Gibson, Colorado State Univ.), 1985-87.

Co-principal investigator (with D.H. Knight and W.A. Reiners), Eisenhower Consortium/U. S. Forest Service, "Acid neutralization in Rocky Mountain coniferous forest ecosystems". \$59,444, 1985-86.

NATO Scientific Affairs Division: Support of advanced research workshop "The Chemistry of Weathering". 1,000,000 Belgian Francs (approx \$20,000), 1984.

NSF (Environmental Geosciences): Rock weathering: geochemical and biological controls. \$135,615, 1983-86.

Office of Water Policy/USGS: Processes controlling the composition of infiltrating water in forested mountain watersheds. \$13,662, 1983-84.

Collaborating Investigator on EPRI Project "Lake Acidification and Fisheries", PI H.L. Bergman (Zoology Dept). Project had a budget of about \$3 million, 1983-88.

NSF (Submarine Geology & Geophysics): Isotopic, chemical and mineralogical studies of sediments, pore waters, and altered igneous rocks sampled by the Deep Sea Drilling Project: III. Chemical and mineralogical studies of sediments and altered basalts. \$44,400, 1978-80.

NSF (Geochemistry): Research on the chemistry of weathering of volcanic rocks. \$44,300, 1978-80.

NSF (Submarine Geology & Geophysics): Alteration of igneous rocks sampled on Leg 45 of the DSDP. \$17,100, 1977-78.

EPA: A cooperative project to evaluate surface and ground water problems associated with potential strip mine sites. Wyoming Geochemistry Sub-Project, \$197,727, 1975-81.

Wyoming Environmental Institute/ARCO: Impact of proposed strip mining on water quality, Thunder Basin, Wyoming. \$22,800, 1973-74.

NSF (Geochemistry): Controls on the chemical composition of surface waters in the Absaroka Mountains, Wyoming, and Teels Marsh, Nevada. \$35,700, 1973-75.

NSF (Submarine Geology & Geophysics): Research on diagenetic reactions of silicates in cores taken by the Deep Sea Drilling Project. \$66,900, 1972-76.

COURSES TAUGHT (University of Wyoming):

Geochemistry of Natural Waters (senior/graduate)

Clay Mineralogy (graduate)

Geochemical Analytical Methods (graduate, shared)

Water Quality Modeling (graduate)

Geochemistry (senior/graduate)

Non-Clastic Sedimentation (senior/graduate)

Introduction to Oceanography (undergraduate)

Foundations of Geology I: Chemical Evolution of the Earth (undergraduate, shared)

Physical Geology (freshman, shared)

Various graduate seminars, including

Global Geochemical Cycles

Stable Isotopes in Low-Temperature Processes

Dissolved Organics in Natural Waters

Acid Deposition and Surface Water Chemistry

Environmental Geochemistry of Heavy Metals and Metalloids

FORMER GRADUATE STUDENTSPhD

W.R. Miller (US Geological Survey, Denver)(retired)
 C.L. Smith (USGS, Denver)(retired)
 J.D. Murphy (joint with R.C. Surdam) (was Tenneco, now private consultant)(member UW A&S Board of Visitors)
 B.A. Kimball (USGS, Salt Lake City)
 R.C. Antweiler (USGS, Denver)
 J.B. Shanley (USGS, New Hampshire)
 M.A. Mast (USGS, Denver)
 D.C. Clow (USGS, Denver)
 J.B. Finley, Jr. (was Faculty, U. Miami of Ohio, now consultant, Fort Collins)
 A. Carrillo (Faculty Universidad Nacional Autonoma de Mexico)
 A.R. Hoch (was NRC Postdoc, USGS, faculty, Lawrence Univ., Wisc, now Director Laramie Rivers Conservation District)
 A. B. Sullivan (Wigner Fellow, Oak Ridge National Laboratory, now USGS Vancouver WA)

MS

C.D. Sands (High school teacher)
 L.V. Mott (PhD in marine archaeology Texas A&M; now Senior Research Fellow, Dept. of History, Univ. Minnesota)
 W.L. Dam (Nuclear Regulatory Commission, Now private consultant)
 D.R. Hurcomb (US Bureau of Reclamation)
 J.M. Mason (Consultant, Wisconsin)
 A.E. Blum (PhD Yale, currently USGS, Boulder)
 E.A. Rochette (PhD Oregon St., Soils; Postdoc Stanford)
 M. Blanchard (Peace Corps, Africa)
 R.M. Oxburgh (PhD Columbia, was faculty, Univ. Edinburgh, UK, now in video production business, London)
 K.A. Rittle (Consultant, TriHydro Corp., Laramie)
 J.L. Uhrie (PhD Mich. Tech, Phelps Dodge Mining Company, AZ)
 K.M. Murphy (Consulting, Laramie, WY)
 Y. Sun (Consulting, Houston, TX)
 A.A. Bell (Consulting, Dallas, TX)
 R. R. Harrington (was with Exxon; now Texas Bureau of Economic Geology)
 G. Oelsner (PhD Arizona, hydrology; now US EPA Corvallis, OR)
