

Plate tectonics homework assignment essay:

Geophysical evidence for (or against) the Plate Tectonics theory

Compose a two page single spaced essay that provides the geophysical evidence that that supports the Plate Tectonic theory. Include a few figures that are properly referenced in the text. Maximum essay length of 2 pages. Use 12 point single spaced font with normal one-inch margins. Print out and submit the essay in class.

Use the Plate Tectonic lecture figures or whatever web material you desire.

But, do not copy text from the web and paste it into your document. I can easily see if you did this by asking you to write a paragraph in front of me and comparing the quality of the prose.

The essay will be graded as follows:

- 30% Coherence of writing. Is the text logical or non-sequitur?
- 30% Completeness: are the assigned topics duly addressed?
- 20% Grammar and spelling
- 20% Integrated use of Figures.
