

(1) Please go to Google Map: <http://maps.google.com/maps?hl=en&tab=wl>

Press "Get Directions".

Put in the address of UW GG in box "A": 1000 University Ave. Laramie, WY 82071

Put in your own address in box "B": XXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXXX

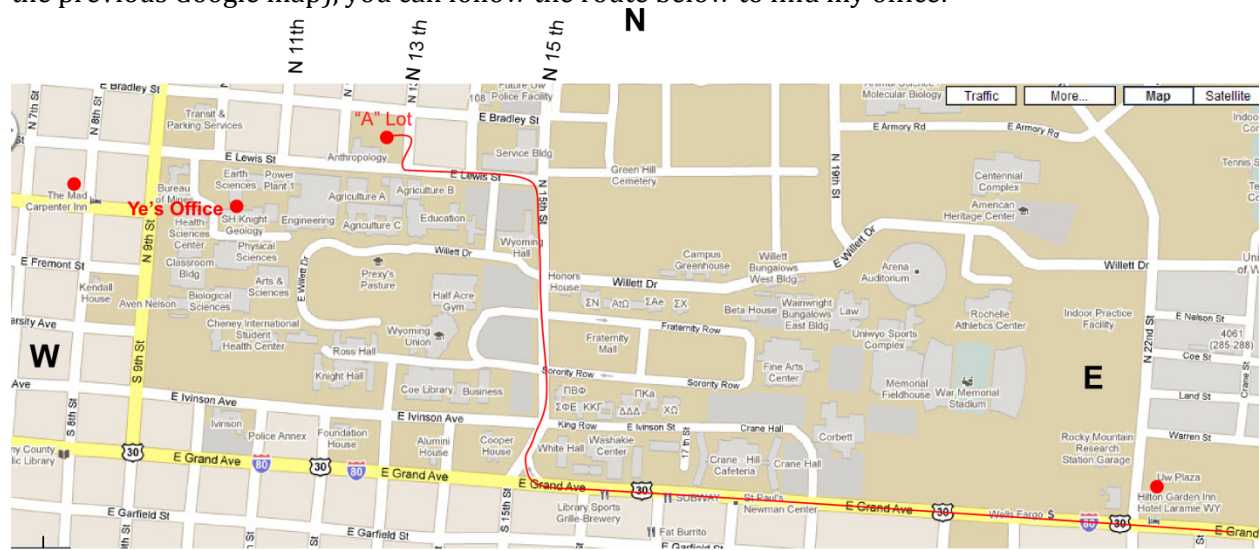

Press the "Get Directions" box.

This map will lead you to a location on the **S 9<sup>th</sup> Street** (Biological Sciences building of UW). The use of this map is to show you the location of **Grand Ave** (also Interstate Freeway I-80). UW has the same postal address, while departments are distinguished by codes which are not recognized by the postal service. The department's official address (above) cannot be used to search for its location. *(Please ignore the driving Direction on GG's website, as it does not reflect the construction areas around the department where roads are blocked).*

If you're heading to Laramie from DIA, you can take I-25, then I-80. Though 287 is shorter, the road may be closed temporarily due to snow condition.

When you're on I-80 heading west into town, take the first exit that will take you to **Grand Ave**.

(2) Once you're on Grand Ave heading west into town and thus the University (as shown by the previous Google map), you can follow the route below to find my office:

Give me a call while at the "A" lot north of the Anthropology Building, and I will come out with a 1-day **visitor's parking permit**. If you're staying at the Mad Carpenter's Inn (2 blocks W of GG), you can park on the street & walk to GG. If you're staying to the Hilton Garden Inn (see the red dot near 22<sup>nd</sup> street), you can follow the red line to get to the "A" lot.

If you stay longer than 1 day, please ask me to get you temporary visitor parking permits. If you come between 8 and 8:30 am, you can park in the "A" lot north of Anthropology. This lot can be accessed by turning off Lewis. If you come in after 8:30 am, Anthology will likely be filled and you will need to park at the big lot at Lewis & 15th, which lies north of "Wyoming Hall". This lot can also be accessed by turning off Lewis.
